REPORT

From : Missionary Outreach Charity Liberia

To : Missionary Outreach Ministries U. K

We write to appreciate your support giving to us for the work in Liberia.

That is why we sent you this report so you will know how these funds was used, and to answer some of your needs for the work in the U.K.

We firstly bought rice with \$200.00USD for the orphanages children and they were so happy as you can see the pictures.

So we recorded the lady who take care of these orphanages children, and she also explained their major problem for now, which is the drinking water because their drinking water pump is no longer working so they need new pump but they want to repair the old pump because no money so they charged them \$250USD for the materials and the work.

But no money so the work is not done. Therefore we and the orphanages are kindly asking for you to help so these children can get good drinking water because they are getting sick every day from the well water they drink.

\$200USD was also sent for the old folk's home and they too appreciate your kindness especially by providing some food and with some medical help because they are getting sick every day as you can see in the pictures at the clinic.

We also thank you for your funds which help to do the registration of the charity 275, the vehicle 225 and digital camera 250, which will help me to always send you good and clear pictures so you can do more for our charity and the work in the U.K especially one of our important supporter Dave. We asked Dave to consider the past because of not getting good photos for some time, Lord's way we will continue to send you clear and beautiful pictures.

We also thank you for the funds so that we were able to use \$180USD to do some of our agriculture work even though we have a lot to do.

All of this kindness is showing in the pictures sent to you. But our major need now is the orphanage and the clinic.

The orphanage home doesn't have good drinking water, so we need to work on their pump. As for the clinic, you can see all the pictures of the clinic and the effort they are making but they have not yet got anything from you in the U.K as a support for their effort and they are taking care of the old people.

Please do your best for them because they need to complete the plastering and the painting of the clinic.

Thank for your understanding.

May the Lord bless you for your effort.

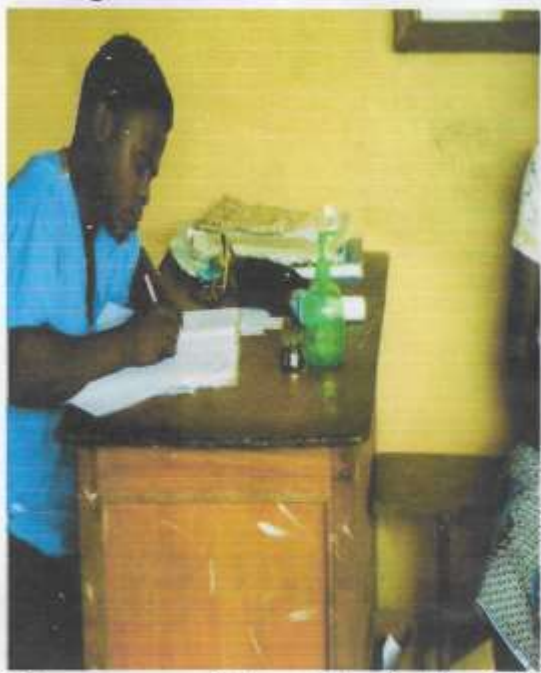

Your friends
Liberia Missionary Outreach Charity

These are two clinic rooms, even though there are more rooms

The Nurse taking the old folk temperature

This young man is the registrar for the clinic

Josiah packing the rice in the vehicle for the orphanages children

Off loading of the rice from the vehicle
